Introduction

Softmeet, a revolutionary cloud-based social video conferencing platform and application proudly designed for South Africans. In a country rich in diversity and connectivity challenges, Softmeet emerges as a beacon, transcending barriers to communication and fostering meaningful engagements.

Our platform empowers individuals and organizations to meet online securely, eliminating the need for data or airtime. We envision a South African where every voice can be heard , regardless of geographical or economic constraints.

Video Conferencing

Our video conferencing platform aims to optimize educational interactions, fostering collaboration among teachers, students, and parents. Softmeet's application prioritizes efficient communication, enabling impactful virtual engagements and promoting the best interests of students.

Benefits and Outcomes:

Enhanced Learning Experience:

Improved teacher-student interactions, providing personalized support and fostering student engagement. Facilitated student-to-student collaboration, promoting teamwork and knowledge sharing.

Efficient Parent-Teacher Engagement:

Streamlined virtual meetings, enabling parents to actively participate in their child's education. Accessible progress tracking tools, ensuring parents stay informed about their child's academic journey.

Optimized SGB Engagements:

Increased efficiency in SGB meetings through secure virtual spaces and collaborative tools. Improved decision-making processes for the benefit of the school community.

Education

Transform the educational experience with our Dialog AI feature. Generate dynamic question papers and memoranda for all grades and subjects, enhancing interactive and effective learning.

Educators & Tutors

Educators are able to connect and facilitate lessons to students, support and share learning curriculum, without incurring the high data and travel costs.

Parents

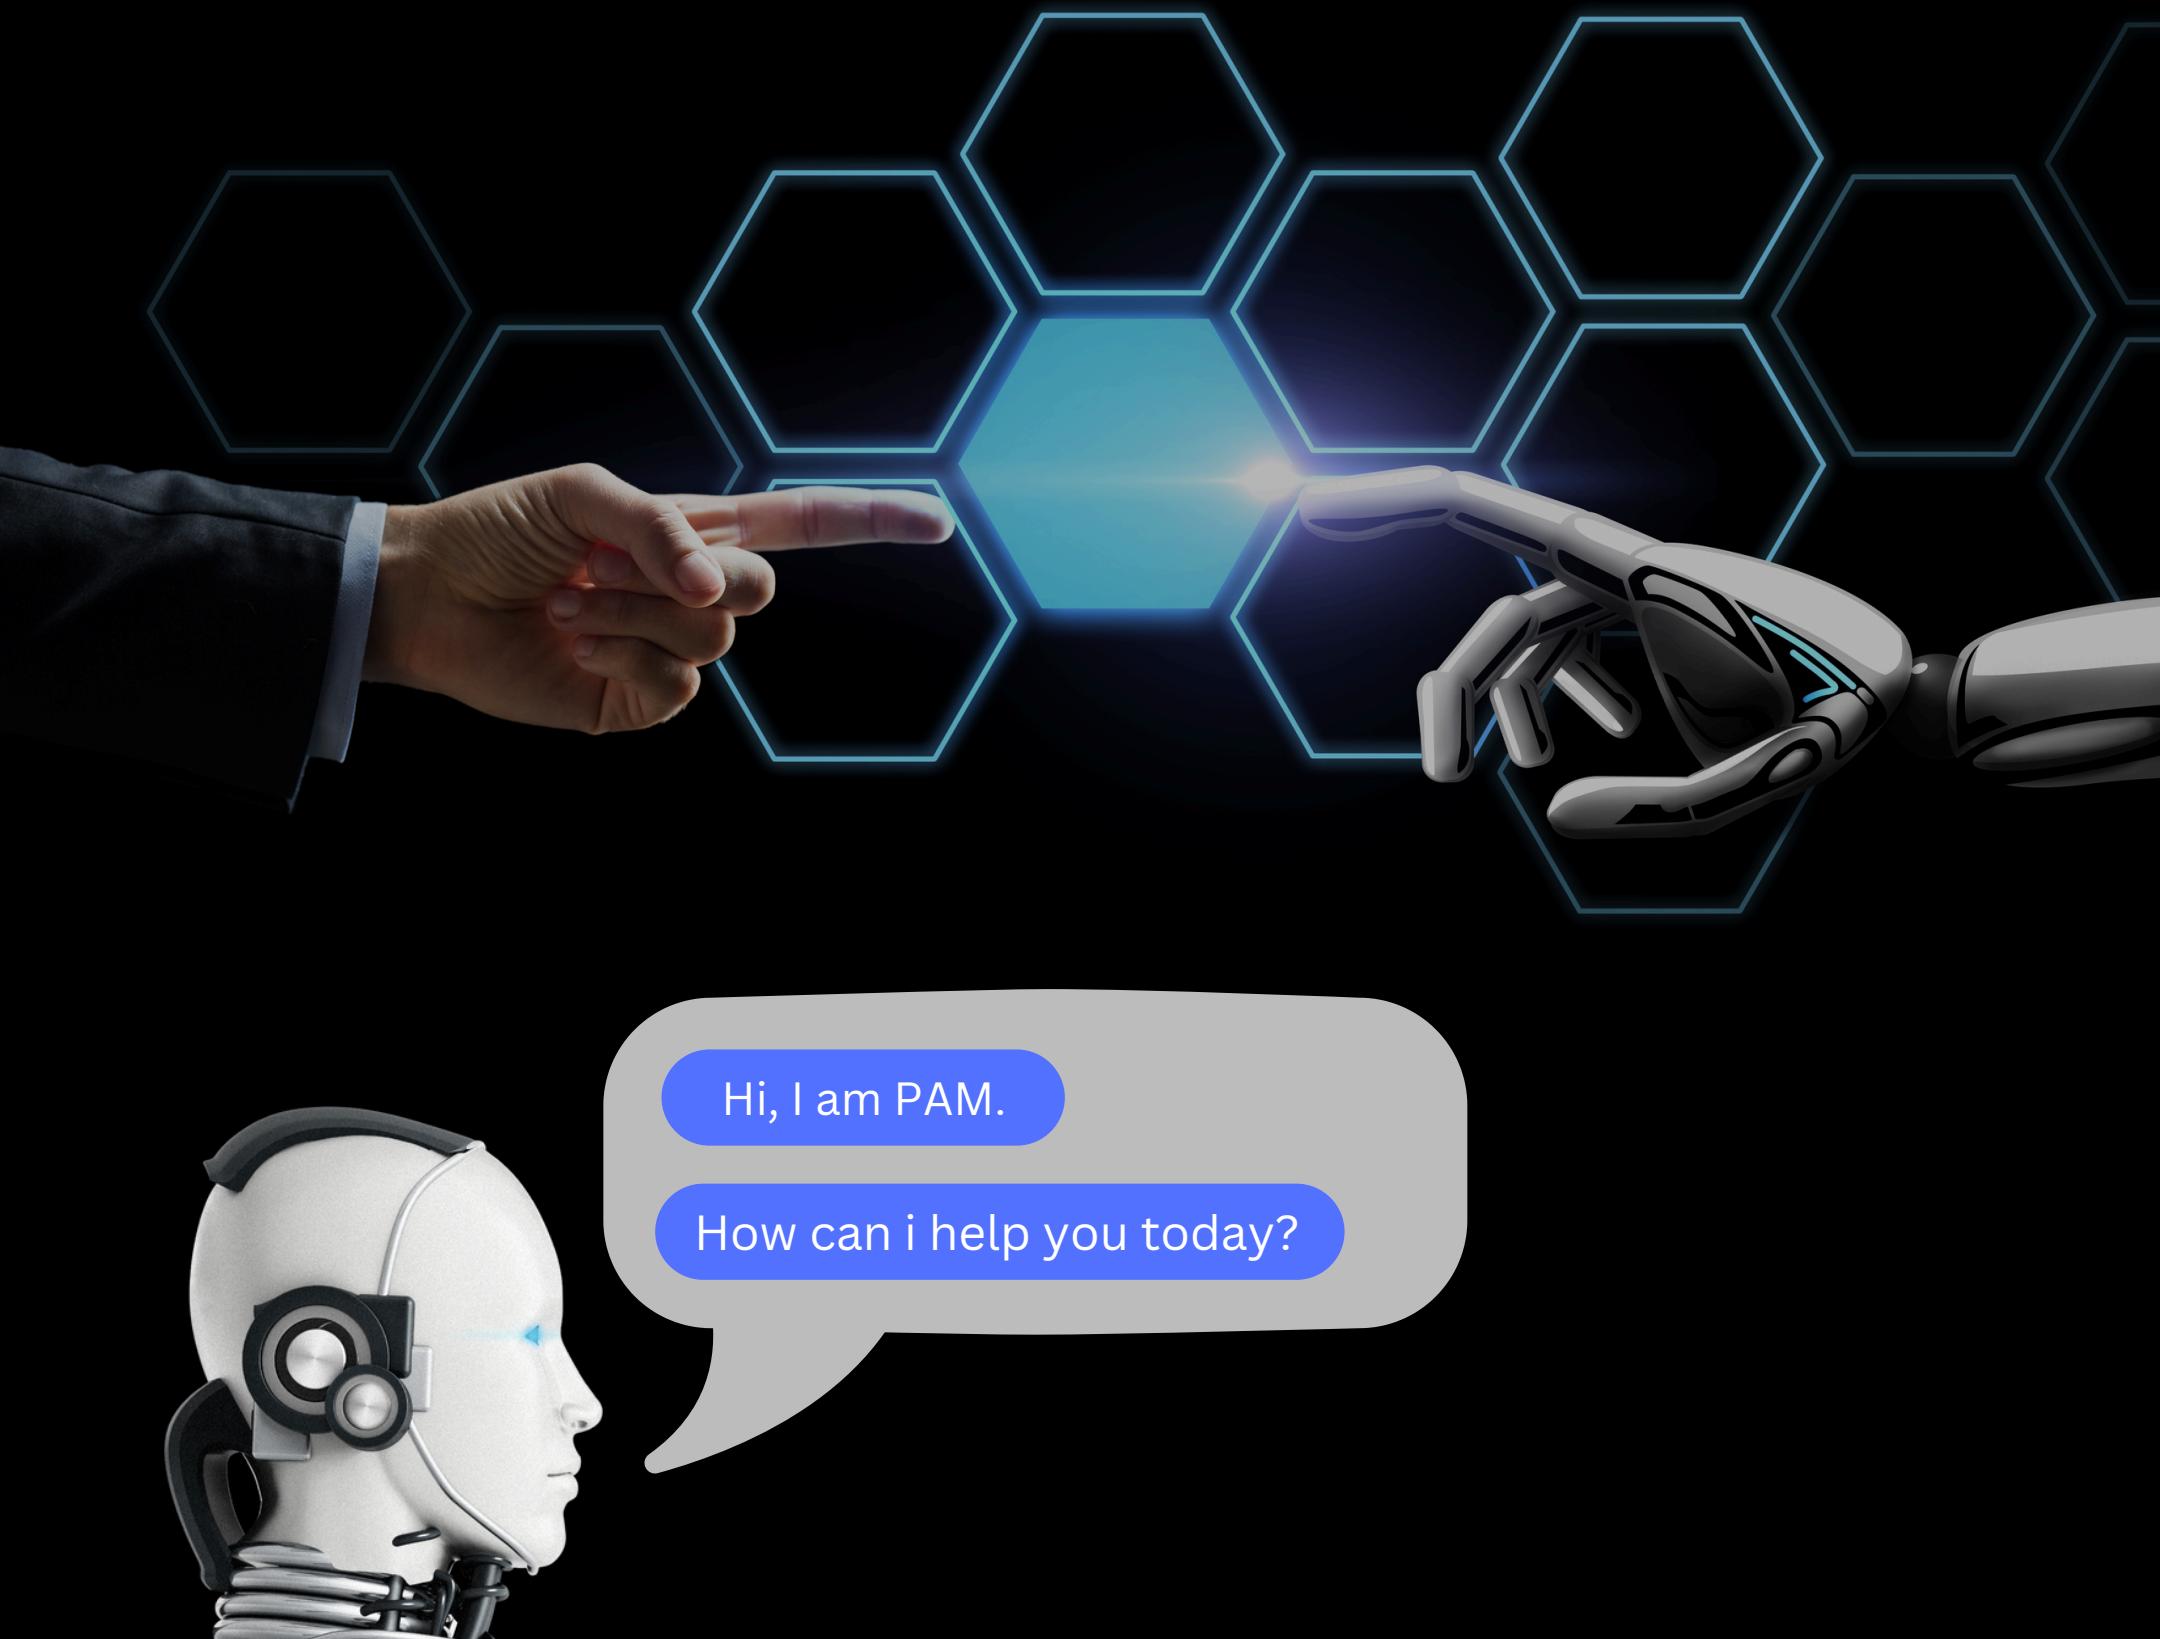

Parents, especially those in remote or low-income areas, can easily participate in virtual parent-teacher meetings or discussions without data usage. This fosters better communication between parents and educators.

Key Benefits

School Governing Body

SGBs can conduct virtual meetings, training sessions, and discussions without the worry of data. This enables efficient communication and decision-making processes.

PAM AI

Hi, I am PAM.

How can i help you today?
