ABOUT US

At Legacy Venture Group South Africa (LVGSA), we manufacture and supply quality plastic products designed to meet the practical needs of households, businesses, retailers, manufacturers and various industries. Our plastic bucket products range from 500 ml to 20 litres offers versatile, durable and cost-effective solutions for storage, packaging, handling and everyday use.

OUR VALUES

Integrity | Innovation | Quality | Customer Focus | Entrepreneurship | Sustainability

OUR VISION

To build a diversified, sustainable and innovative South African business group that creates value through manufacturing, investment, entrepreneurship and strategic partnerships.

OUR MISSION

To identify opportunities, invest in productive businesses, develop practical solutions and build sustainable enterprises that create lasting value for our stakeholders.

IN-HOUSE PRODUCT DESIGN & TOOL DEVELOPMENT

LVGSA offers end-to-end in-house product design and tool development, transforming customer concepts, drawings, or ideas into production-ready plastic products. Our technical team works closely with clients to optimise designs for functionality, manufacturability, durability and cost efficiency, while developing the required moulds and tooling for production.

This capability enables LVGSA to provide a faster, more flexible and cost-effective route from concept to production, whether clients require customised components, product improvements, prototypes, or high-volume plastic manufacturing solutions.
